

Accessibility Audit - Accessibility that works!

More reach. Less risk.

Why accessibility matters now

Accessibility is no longer an option – it is a requirement.

It ensures a better user experience, higher conversions, and protects against legal risks.

Our audit quickly and clearly shows where the website has gaps and how these can be efficiently remedied. Regardless of which CMS is used.

How we check

Certified accessibility experts test your web project based on **WCAG 2.2 (Level AA)**, the international standard for accessible websites.

We analyze:

- Up to 5 public or testable URLs
- A selection of representative layouts & components
- Important interactions & user flows
- Key criteria:
 - **Perceptibility** – Alt texts, contrasts, media content
 - **Usability** – Keyboard navigation, focus guidance
 - **Comprehensibility** – clear instructions, forms, labels
 - **Robustness** – HTML structure, ARIA, semantic correctness

Our methods:

- Manual expert review
- Automated tests to supplement
- Keyboard & screen reader checks in the browser
- Conducted by certified accessibility professionals

What is not included

For maximum transparency: This package is compact and concentrated.

- Complete site audit, e.g., for large platforms
- Usability testing with users with permanent disabilities
- Troubleshooting or implementation
- Legally valid documentation, e.g. VPAT

What we need from you

- Up to 5 public or testable URLs
- Optional: Notes on processes or important page elements

Be smart. Respect accessibility.

Be smart. Conduct an audit.

Be smart. Work with acolono.

What you get

A compact accessibility check for one central page + up to five detail pages - **targeted, effective, and implementable.**

Includes:

- **Manual verification by certified experts**
- Technical and user-oriented analysis
- **Detailed report** (PDF) with **specific recommendations**
- **Priority list**: What should be fixed first
- Screenshots & **explanations**, where appropriate

No meetings. No wasted time.

Just send us the links - we'll take care of the rest.

→ Individual offers are possible at any time.

The result: your audit report

- ✓ **Clear summary** of the results
- ✓ **Classification** of problems as minor / moderate / critical
- ✓ **Screenshots + Explanations**, if needed
- ✓ **Clear recommendations** for UX, design, and development
- ✓ **Priority list** for implementation

Delivery time: Within 14 days as a PDF file.

Package price: €1,950 / \$2,250 net

Drupal-Community-Discount - SAVE 20 %

As an official supporter of the Drupal community (thank you for that), we offer a 20% discount on this package if you are a member of the Drupal Association, a "Ripple Maker," or a Drupal-certified partner.

Community Price = €1,560 / \$1,810 net

AND we donate \$200!

\$100 to the Drupal Association and \$100 to Drupal Austria Association

Get started now - it's easy

Send us your URLs. Maximum 5, from the same top-level domain.

We deliver your audit – clear, well-founded, understandable.
